

# A COLLABORATIVE REVIEW OF THE COASTAL SOUTH CAROLINA LOW IMPACT DEVELOPMENT MANUAL

**THURSDAY, JANUARY 9th, 2013**

**9:00 am - 3:30 pm**

**Marine Resources Research Institute (MRRI)**

**Fort Johnson, Charleston, SC**

## **DRAFT AGENDA**

- 9:00 Sign-in and coffee**  
*Marine Resources Research Institute (MRRI) Lobby*
- 9:30 Welcome and Project Review**  
*Blaik Keppler, ACE Basin NERR; MRRI Auditorium*
- 9:45 Regulatory View of Low Impact Development**  
*Shannon Hicks, Coastal Stormwater Section, SCDHEC-BOW; MRRI Auditorium*
- 10:30 Concurrent Sessions: Review of Draft Manual**  
    **(A) Regulations and Better Site Design Guidelines (Chapters 2 & 3 in draft Manual)**  
        *Sadie Drescher, Center for Watershed Protection; Marshland's House Classroom*  
    **(B) LID Design Specifications (Chapter 4 in draft Manual)**  
        *Greg Hoffmann, Center for Watershed Protection; MRRI Indoor Classroom*
- 12:00 Lunch (provided); Outdoor Classroom**
- 1:15 Concurrent Sessions:**  
*Continuation from morning*
- 2:00 Summary and Reporting: share outcomes of breakout session discussions**  
*Sadie Drescher and Greg Hoffmann, Center for Watershed Protection; MRRI Auditorium*
- 2:20 Incentives for LID Practices**  
*Katie Ellis, SC DNR/ North Inlet-Winyah Bay NERR; MRRI Auditorium*
- 3:20 Wrap-Up and Evaluations**
- 3:30 Conclusion**

---

**During this workshop, participant discussion will help the project team address the following questions:**

- How does this LID manual conform with State stormwater requirements and how will DHEC utilize this document?
- Are there any concepts in the manual that are unclear or require modifications?
- Are the specifications for the BMPs sufficiently informative and appropriate for coastal application?
- What local ordinances and incentives exist for LID practices?
- What are the general opinions about the manual's appearance and organization?

**A NERRS SCIENCE COLLABORATIVE-FUNDED PROJECT**
